

Volantis Professional Flight School Expands Training Capabilities with New ELITE S311 FNPT II Certified Flight Simulator

Brno, Czech Republic – Volantis Professional Flight School is proud to announce the addition of a state-of-the-art ELITE S311 FNPT II certified flight simulator to its advanced training fleet. Manufactured by the renowned Swiss company ELITE Simulation Solutions, the S311 is now fully operational at our Brno training center, offering unparalleled training experiences to both aspiring and seasoned pilots.

The ELITE S311 FNPT II is a cutting-edge flight training device (FTD) certified under the latest European standards. Designed to closely replicate real-world flight conditions, this simulator allows pilots to hone their skills in a safe and controlled environment. Featuring a fully functional flight deck, realistic instrumentation, and high-definition visuals, the S311 provides comprehensive training for a wide range of flight scenarios, including navigation, instrument flying, and emergency procedures. It is also the only synthetic training device of its kind available in Brno, making Volantis a key provider of advanced pilot training in the region.

"We are thrilled to offer our students the ELITE S311 FNPT II simulator, which will significantly enhance the quality and efficiency of our training programs," said Ladislav Venc, Managing Director at Volantis Professional Flight School. "This new addition aligns with our commitment to providing top-tier aviation education and equipping our students with the best tools to succeed."

At Volantis, our mission is to link the best with the best—combining modern aircraft with top-tier digital solutions, including the ELITE flight simulation system, to deliver world-class pilot training experiences. Since Volantis promotes process innovation, ELITE Simulation Solutions has become the only logical choice for the company to work with as a strategic partner.

"We see this upgrade as a direct response to both existing and emerging opportunities for strategic partnerships with global airline brands, which will open up enhanced career pathways for our students and strengthen their connections within the industry," said Ladislav Venc.

The deployment of the ELITE S311 FNPT II marks another milestone in Volantis' mission to deliver exceptional pilot training through innovation and technology. Whether used for initial training, license renewal, or advanced proficiency development, this simulator offers our clients the flexibility and precision needed to achieve their aviation goals.
